

THE ULTIMATE DETTERENT

ARE YOU GOING TO GET ANY NEARER?

National Guard Dogs firmly believe that whilst there are outstanding methods of providing safety and security in this day and age, nothing compares even closely to a properly trained patrol dog working with a skilled handler.

Firstly the dog when suitably trained has a great ability to defend it's self and it's handler. Then secondly when this training has been enhanced the dog will use its unique ability to find hidden persons and items contaminated by human scent using its nose.
